## GENERAL REMARKS.

Our schools for the most part have been taught by teachers too well known to the people of the town for me to take any of the space allotted me in this report to particularize on their services separately. With one or two exceptions every term has been taught and conducted successfully. Visits by parents have not been as numerous as they ought, but a fairly good number. The registers report 216 visitors, a falling off from last year. Number of tardy marks, 178; per cent. of attendance, 86.91+ less owing in part to sickness, and changing of families.

As it is much easier to censure than to approve, so it is the tendency often to look for better results in our schools than we ought, and especially is this true of those who seldom or never visit and, therefore, know but little about them.

Parents and school officers need to be considerate and careful in every point touching on the great question of education. Let us take more time. Better give your child's training a few hours' attention than leave a rich legacy. Our schools in this country are the most important factor in our civilization, and the corner stone of our form of government.

The people must be intelligently educated if they are to govern themselves. The permanency and high standard of our schools are, therefore, of vast importance—an interest in which all should be active. Every citizen should do all he can to build up and strengthen our schools, to make their standard higher, their work better.

The selection of teachers is of the greatest importance to the welfare of our schools, and it should be made with due caution.

Now after good character and efficiency, there is, perhaps, nothing more needful in the schoolroom than permanency in the teacher's chair. New teachers, new ways, new acquaintanceships to be made by pupils and teachers promise an amount of friction and ill adjustment in a school which is often prohibitive of good work, and ruinously expensive in time lost both to pupils and community. To this end I would recommend that the school board secure the services of as many of our present corps of teachers as possible. Teachers at six dollars a week are sometimes worth twelve or fifteen, but not very often. Here, as in other forms of work in the world, the lowest paid is the highest compensated. Penuriousness is often as bad as extravagance.

Existing laws require towns to maintain schools thirty weeks in the year in order to receive state aid; so before we vote our extra appropriation for the maintenance of schools let us approximate our expenses.

Respectfully submitted,

JAMES B. MARTIN,

*Superintendent.*

# REPORT OF BOARD OF EDUCATION.

*To the Citizens of Fremont:*

Our schools as a whole have made good progress during the year. The teachers have all tried to bring their schools to a high degree of perfection, and each has accomplished valuable results.

Parents and all interested in the welfare of our children have generally shown great interest in the work, but there is a lack of that sympathetic interest and co-operation on the part of some, so essential to the success of any school. It is a bounden duty we all owe our children and humanity, to not only send them to school, but command them to obey the rules and respect the teacher. "Order is Heaven's first law," and no teacher, however competent in other respects, can be successful without maintaining the most rigid discipline, even if to accomplish this, stringent rules have to be enforced. If any have grievances, go privately to the teacher and have a friendly talk with her, strive to help rather than discourage her; failing to obtain satisfaction in this way, bring your case to the school board, and all parties shall have a fair hearing. Let all remember that the school room, in school hours, is not the place to bring action against the teacher, and such interference will not be tolerated.

The state laws in regard to school attendance are very strict and *must be enforced.*

All children from 8 to 14 years of age must attend school every day as long as it is in session, unless excused by the school board for good reasons.

Children from 5 to 8 and over 14 years may attend, but if once registered as scholars they will be subject to the

same rules and required to attend the entire term, unless excused.

Let us remember that the boys and girls of today are to be the men and women of tomorrow, and upon them will devolve the future prosperity of humanity. It is sad to think that any human being should be allowed to grow up in ignorance, and thus forever be unable to act their full share in the great drama of life.

# SCHOOL REPORT.

The schools in Fremont have made satisfactory progress the past year. Thanks to state aid and more liberal appropriations, the school year has been very materially lengthened over previous years, so that we now have as much schooling as the average small town throughout the state, and on the whole we believe their standard will compare favorably with most towns.

The number of scholars registered for the year is 108, with an average attendance of 90. It is the bounden duty of all parents to keep their children in school as much as possible; none should be allowed to miss a single day unless absolutely necessary. These are golden days in their lives, many of us look back with regret upon misspent opportunities of our school days. Let none of the youth of today have cause, in future years, to look with sorrow upon their early lives. The future welfare of the country depends upon the education of the children.

## ESTIMATES FOR THE COMING YEAR.

| | |
|---|---|
| Money required by law, | $795.00 |
| Money required for high school tuitions, | 400.00 |
| Money required for extra schooling, books, etc. | 500.00 |
| Money required for salaries | 53.00 |

By law in order to obtain state aid the tax for school purposes must be $4.50 on a thousand dollars of *equalized valuation,* which would require our district to raise at least $1,692. This amount with what we shall probably receive from the state should give us about thirty-five weeks schooling for the year, which is desirable.

All the schoolhouses are in fairly good condition, except some minor repairs needed such as whitening the walls and repairing blackboards, etc. The seats in the village primary school are so high that many of the children cannot touch the floor with their feet; this must be remedied in some way. We have a good supply of books on hand, nearly enough for next year, and some of the schools need a supply of maps, charts, etc. A workman, however skilled, cannot do good work without the necessary tools, so our teachers should be supplied with all up-to-date implements of labor, to accomplish good results, and our school rooms, the children's workshop, should be made as comfortable as possible.

Two of our teachers, Mrs. Ellis and Mrs. Philbrick, have secured state certificates as qualified teachers. This entitles them to $2 per week from the state; one half of this has been given them to increase their salaries, and the balance to lengthen their schools. We wish it were possible to secure more qualified teachers.

It certainly would seem advisable for all prospective teachers to either take a course in some training school, or pass the necessary examination to become qualified teachers. This would not only enable them to command better pay, but our schools would profit by more competent teachers.

## ROLL OF HONOR.

Pupils not absent during the year: Myrtle M. Clement, Harry G. Marcotte, Harold J. Clement, Albine A. Marcotte, Norine M. Clement, Donald C. Beede, Simeon F. Gardner, Sylvester A. Sanborn, Nelson W. Beede.

# AUDITOR'S REPORT.

FREMONT, N. H., February 15, 1914.

This certifies that I have carefully examined the accounts of the selectmen, town and school district treasurer, road agents, board of education, and library trustees of the town of Fremont. I find them correctly cast and supported by proper vouchers for the several charges and that there remains in the hands of the town treasurer $1,491.42 with a balance against the town of $159.55 at the close of the fiscal year.

WILCOMB H. BENFIELD,
*Auditor.*

# SCHOOL REPORT.

*To the Citizens of Fremont:*

In presenting the annual school report for the year ending February 15, 1914, it gives us pleasure to state that our schools have made commendable progress. Some people say the schools are not what they used to be, but isn't that the same old story that has been ringing down through the ages, "Things are not what they used to be in our grandfathers' days." Let us stop a moment and look the situation squarely in the face. Is the fault wholly with the teacher and the system? Are not the parents, the times, the conditions, and even the children partly to blame? True it costs more to educate our children now than it used to, but doesn't everything else cost more than it used to?

The state and towns never were doing so much for education as they are today. It may be that teachers, like all other hired laborers, are trying to do as little for their pay as possible, but they are certainly entitled to as much credit as the man on the farm, on the highway, or in the shop and mill, or any of our public servants. Is it not a fact that in all walks of life the question of the day is not how much had I ought to do, but how little can I do and get my pay? Where then lies the remedy?

We know that all of our teachers worked hard and tried in every possible way to accomplish desirable results in the school and with a good degree of success. But parents and all others interested in education should not lose sight of the fact that they too have a part to perform. Put yourself in the teacher's place for a day. Visit the school, closely observe the innumerable questions asked by the pupils, the almost momentary cases that demand her instant decision

and you will, long before the day ends, conclude that to be a successful teacher requires more patience than most of us possess.

Much can be done by the parents for the children within the home by creating and encouraging a spirit of civic pride that will in future years broaden the scope of their usefulness and service to the community.

Remember the old adage "Order is Heaven's first law." No school can be a success without it. The teacher should not be obliged to spend her time in maintaining order in the school-room, neither should she attempt to teach school a moment without it. Children should be taught obedience and decorum at home and there will be no trouble when they go to school or elsewhere. The child's welfare should be advanced and safeguarded in every possible way.

# Auditor's Report

FREMONT, N. H., February, 15, 1915.

This certifies that I have carefully gone over the accounts of the Selectmen, Town and School District Treasurer, Road Agents, Library Trustees and Treasurer of the 150th Anniversary Committee. I find them correctly cast and supported by proper vouchers for the several charges; there remains in the hands of the Town Treasurer $337.88, with a balance in favor of the town of $404.70 at the close of the fiscal year.

WILCOMB H. BENFIELD, *Auditor.*

---

NOTE.—It may not be out of place to state that the Town has cleared itself of a debt of nearly $3000.00, incurred by the building of two new steel bridges a few years ago. This, accomplished with an appropriation of $1000.00, speaks for itself as to the Town's management.

Also we would suggest that a vote of thanks, at least, should be extended to the manager of the Spaulding & Frost Co., for electric lights furnished gratis on our streets and in public buildings.

W. H. B.

# School Report

To the Citizens of Fremont:

Another school year is past, and it becomes our duty to again report to you the condition of our schools, and note whatever of success or failure may have been made during the year, as well as to render the financial account for your inspection.

We have maintained the five schools as usual, with an equal length of thirty-four weeks, with three weeks extra for the Village Intermediate on account of the teacher, Mrs. Ellis, holding a State certificate, thereby receiving two dollars per week from the State. Also the South School, Mrs. Philbrick, got one week extra for the same reason.

There are in town, according to the enumeration furnished by the truant officer, 177 pupils of school age, and 107 are enrolled on the school register, six of whom live out of town and sixteen are attending High School. The attendance, with few exceptions, has been good, parents generally have co-operated with the teachers, without which no school can be a success.

But there are some to whom we wish to quote from the School Laws of New Hampshire, Chapter 93, Sec. 14: "Every person having the custody and control of a child between the ages of eight and fourteen years, or of a child under the age of sixteen years, unless such child shall have completed the course of study prescribed for the elementary schools, residing in a school district in which a public school is annually taught, shall cause such child to attend the public school all the time such school is in session." The State authorities have notified us that this law *must* be enforced. All should understand, once for all, that the School Board of a town cannot excuse any one from attending school, except in case of sickness.

The District School is really the most important institution

in the community, and the teacher is, or should be, among the most essential personages. To her is committed the care of our children, in the period when they are most easily molded, and when her influence is as potent as are the parents'. The childish mind must be so guided that his after years may be useful. The teachers of the country schools are shaping the destiny of our nation.

While our schools may not have reached that high degree of perfection so much to be desired, yet we believe they compare favorably with their class of schools throughout the State. It should be borne in mind that school work demands continuous yearly growth, a gathering of new ideas and putting them judiciously into practice. The hill of knowledge is long and steep. There is always something more to learn beyond, and we should grasp every opportunity in our youthful days, to gain such knowledge as will enable us to scale the heights as we come to them. Some say it does not pay to put so much money into our schools as we are doing. That much of it is thrown away. That twenty weeks' schooling a year is enough, and all that sort of talk one can hear. To such we would ask, can we afford to do less by the young people, committed to our keeping? And to the croakers, remember the words of the Great Teacher, "Let those that are without fault, etc."

We recommend the following appropriations for the coming year:

| | |
|---|---|
| Required by law | $900 00 |
| Additional to secure State aid | 391 00 |
| High School tuition | 450 00 |
| Books, supplies, flags, repairs, etc. | 150 00 |
| Salaries | 68 00 |
| | $1,959 00 |

The annual school meeting will be Saturday, March 13, 1915, at 2 P. M., at the Town Hall.
